- Experienced in both team and independent environments, having worked on group projects, independent research, and personal projects to enhance skills.
- Experienced in teamwork, communication, and problem-solving, with the ability to quickly adapt to changes in workflow and menu offerings.
- Oral fluency in English and Arabic, Urdu, Hindi, Punjabi

EDUCATION

Bachelor of Engineering Science – (Software Engineering)   **2021 - Present**
Western University, London, ON

High School Diploma, With Honors   **2017 -2021**
Central Peel Secondary School, Brampton, ON

Work Experience

SK Solutions (CEO & Founder)   **2023 (February- Present)**
- Designed and developed a user-friendly CRM software to help businesses manage their inquiries, which resulted in a 34% increase in productivity and streamlined processes.
- Implemented features such as lead tracking, task management, and customer communication to improve efficiency and enhance customer relationships, resulting in positive feedback from users.

MWN Wellness Center (Camp Councilor)   **2023 (May - Aug)**
- As a Camp Counselor at Muslim Wellness, I encouraged creative problem-solving in engineering-related activities, fostering a sense of community and well-being among participants. This experience enhanced my leadership and communication skills while promoting holistic health and inclusivity.

E-commerce Store Manager (CEO & Founder)   **2022 (May - Present)**
- Implemented features such as lead tracking, task management, and customer communication to improve efficiency and enhance customer relationships, resulting in positive feedback from users.

Social Media Manager Agency (CEO & Founder) 2022 (May - Present)
- Founded and managed a successful social media management agency, helping businesses increase their revenue and customer engagement through tailored social media strategies.
- Leveraged a range of techniques, including content creation, community management, and paid advertising, to generate impressive results for clients. Through my efforts, I directly contributed to increased sales and revenue for businesses in a variety of industries.

Canadian Hospital Specialties (Material Handler)   **2021 (May - Present)**
- Developed and implemented strategies to optimize inventory control processes, resulting in significant improvements in efficiency and accuracy.
- Collaborated with cross-functional teams, including purchasing and logistics, to ensure timely delivery of orders and minimize stockouts.
- Demonstrated excellent attention to detail and analytical skills, regularly identifying and resolving inventory discrepancies and performing regular inventory audits to maintain accuracy.

Extra-Curricular Activities

Operating Systems, languages, and Software

- Operating Systems: Windows and Linux; Languages: JAVA, C, C++ and Python; Software: Unity, Unreal Engine 4, Visual Studio, IntelliJ, PyCharm and Eclipse.
- I have worked with different languages and built a few projects such as in Java, Python, C++, and development tools such as IntelliJ, PyCharm, Eclipse, Visual Studio, and Git. In Java, I have built a music visualizer and a checkers game, while in Python I have created a tic-tac-toe game with a graphical user interface. I have also worked on a racetrack game in Unreal Engine 4 and Vex bots in C++, where I gained experience in low-level programming, robotics, and computer vision. I am familiar with Agile development methodologies and have collaborated with cross-functional teams to deliver high-quality projects on time and within budget.
- I have two portfolios: one demonstrating my work in Java and CSS, and the other showcasing my experience with Flutter and Dart.
